

Page 1/16 Printing date: 14.03.2022 Revision date: 14.03.2022 Version no. 3 Safety Data Sheet according to WHS Regulations

Hazardous according to criteria of Australian Safety and Compensation Council.

1 Identification

· Product identifier

Trade name: BODY PRO C496 2K HS CLEAR SPRAY

• Article number: 875

Relevant identified uses of the substance or mixture and uses advised against

• Sector of Use SU3 Industrial uses: Uses of substances as such or in preparations at industrial sites

• **Product category** PC9a Coatings and paints, thinners, paint removers

• Process category PROC8a Transfer of substance or mixture (charging and discharging) at non-dedicated facilities

• Environmental release category ERC2 Formulation into mixture

• Article category AC1 Vehicles

Application of the substance / the mixture

Surface protection Coating material

Details of the supplier of the safety data sheet

2 Hazard(s) Identification

Classification of the substance or mixture

Aerosol 1 H222-H229 Extremely flammable aerosol. Pressurized container: may burst if heated.

Eye Dam. 1 H318 Causes serious eye damage.

Skin Irrit. 2 H315Causes skin irritation.STOT SE 3 H336May cause drowsiness or dizziness.

· Label elements

GHS label elements The product is classified and labelled according to the Globally Harmonised System (GHS).

· Hazard pictograms

Signal word Danger

• Hazard-determining components of labelling:

dimethyl ether butan-1-ol xylene 2-butoxyethyl acetate

Hazard statements

H222-H229 Extremely flammable aerosol. Pressurized container: may burst if heated.

- H315 Causes skin irritation.
- H318 Causes serious eye damage.
- H336 May cause drowsiness or dizziness.

Precautionary statements

P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

- P310 Immediately call a POISON CENTER/doctor.
- P321 Specific treatment (see on this label).
- P362+P364 Take off contaminated clothing and wash it before reuse.
- P405 Store locked up.
- P410+P412 Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F.

P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

Other hazards

Results of PBT and vPvB assessment

• **PBT:** Not applicable.

3 Composition and Information on Ingredients

Chemical characterisation: Mixtures

Description: Mixture of hazardous substances listed below with nonhazardous additions.

Dangerous components:

Daligerous componer		
CAS: 115-10-6 EINECS: 204-065-8 Index number: 603-019-00- RTECS: PM 4780000	dimethyl ether Flam. Gas 1, H220 Press. Gas C, H280 Acute Tox. 2, H330	35-<40%
CAS: 67-64-1 EINECS: 200-662-2 Index number: 606-001-00- RTECS: AL 3150000	acetone Flam. Liq. 2, H225 8 Eye Irritation 2A, H319; STOT SE 3, H336	15-<20%
CAS: 1330-20-7 EINECS: 215-535-7 Index number: 601-022-00- RTECS: ZE 2100000	xylene Flam. Liq. 3, H226 9 Acute Tox. 4, H312; Acute Tox. 4, H332; Skin Irrit. 2, H315; STOT SE 3, H335	5-<10%
CAS: 123-86-4 EINECS: 204-658-1 Index number: 607-025-00- RTECS: AF 7350000	n-butyl acetate Flam. Liq. 3, H226 1 STOT SE 3, H336	5-<10%
CAS: 71-36-3 EINECS: 200-751-6 Index number: 603-004-00- RTECS: E0 1400000	butan-1-ol Flam. Liq. 3, H226 Eye Dam. 1, H318 Acute Tox. 4, H302; Skin Irrit. 2, H315; STOT SE 3, H335-H336	≥3-<5%
CAS: 108-65-6 EINECS: 203-603-9 Index number: 607-195-00-	2-methoxy-1-methylethyl acetate Flam. Liq. 3, H226 7	1-<5%
CAS: 112-07-2 EINECS: 203-933-3 Index number: 607-038-00- RTECS: KJ 8925000	2-butoxyethyl acetate	1-<5%

• **Additional information:** For the wording of the listed hazard phrases refer to section 16.

4 First Aid Measures

Description of first aid measures

General information:

Immediately remove any clothing soiled by the product.

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

• After inhalation: In case of unconsciousness place patient stably in side position for transportation.

- After skin contact: Immediately wash with water and soap and rinse thoroughly.
- After eye contact: Rinse opened eye for several minutes under running water. Then consult a doctor.

• After swallowing: If symptoms persist consult doctor.

Information for doctor:

• Most important symptoms and effects, both acute and delayed No further relevant information available.

· Indication of any immediate medical attention and special treatment needed No further relevant information available.

Continue on page 4

ΔIJ

5 Fire Fighting Measures

Extinguishing media

• **Suitable extinguishing agents:** CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam. • **Special hazards arising from the substance or mixture** No further relevant information available.

Advice for firefighters

Firefighters should always protective equipment and breathing apparatus when handling fire coming from these products

• Speial protective equipment and fire fighting procedures: No special measures required.

• Additional information Collect contaminated fire fighting water separately. It must not enter the sewage system.

6 Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

Wear protective equipment. Keep unprotected persons away.

Environmental precautions: Do not allow to enter sewers/ surface or ground water.

Methods and material for containment and cleaning up:

Use neutralising agent.

Dispose contaminated material as waste according to item 13. Ensure adequate ventilation.

Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

7 Handling and Storage

- Handling:
- Precautions for safe handling Ensure good ventilation/exhaustion at the workplace.

Information about fire - and explosion protection:

Do not spray onto a naked flame or any incandescent material.

Keep ignition sources away - Do not smoke.

Pressurised container: protect from sunlight and do not expose to temperatures exceeding 50°C, i.e. electric lights. Do not pierce or burn, even after use.

Conditions for safe storage, including any incompatibilities

Storage:

Requirements to be met by storerooms and receptacles:

Observe official regulations on storing packagings with pressurised containers.

• Information about storage in one common storage facility: Not required.

• Further information about storage conditions: Keep container tightly sealed.

• Specific end use(s)

This product is only to be used by a trainned professionals after they have read and follow the safety instructions on this document

8 Exposure controls and personal protection

• Additional information about design of technical facilities: No further data; see item 7.

Control parameters

Ingredients with limit values that require monitoring at the workplace:

115-10-6 dimethyl ether

WES Short-term value: 950 mg/m³, 500 ppm Long-term value: 760 mg/m³, 400 ppm Page 5/16 Printing date: 14.03.2022 Revision date: 14.03.2022 Version no. 3

Trade name: BODY PRO C496 2K HS CLEAR SPRAY

67-64-1 acetone

- WES Short-term value: 2375 mg/m³, 1000 ppm Long-term value: 1185 mg/m³, 500 ppm
- WHS Short-term value: 2375 mg/m³, 1000 ppm Long-term value: 1185 mg/m³, 500 ppm

1330-20-7 xylene

WES Short-term value: 655 mg/m³, 150 ppm Long-term value: 350 mg/m³, 80 ppm

123-86-4 n-butyl acetate

WES Short-term value: 950 mg/m³, 200 ppm Long-term value: 713 mg/m³, 150 ppm

71-36-3 butan-1-ol

WES Peak limitation: 152 mg/m³, 50 ppm Sk

108-65-6 2-methoxy-1-methylethyl acetate

WES Short-term value: 548 mg/m³, 100 ppm Long-term value: 274 mg/m³, 50 ppm Sk

112-07-2 2-butoxyethyl acetate

- WES Short-term value: 333 mg/m³, 50 ppm Long-term value: 133 mg/m³, 20 ppm Sk
- Additional information: The lists valid during the making were used as basis.

Exposure controls

Personal protective equipment:

General protective and hygienic measures:

Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing Wash hands before breaks and at the end of work. Avoid contact with the skin. Avoid contact with the eves and skin.

Respiratory protection:

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use self-contained respiratory protective device.

Protection of hands:

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Penetration time of glove material

The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.

• For the permanent contact gloves made of the following materials are suitable: Fluorocarbon rubber (Viton)

Page 6/16 Printing date: 14.03.2022 Revision date: 14.03.2022 Version no. 3

Trade name: BODY PRO C496 2K HS CLEAR SPRAY

• For the permanent contact of a maximum of 15 minutes gloves made of the following materials are suitable: Rubber gloves

- Eye protection:
- Safety glasses

Tightly sealed goggles

· Body protection: Protective work clothing

9 Physical and Chemical Properties	ical properties
Information on basic physical and chemi	cal properties
· Appearance:	
Form:	Aerosol
Colour:	Colourless
· Odour:	Characteristic
Odour threshold:	Not determined.
pH-value:	Not determined.
 Change in condition Melting point/freezing point: Initial boiling point and boiling range: 	Undetermined. -24.9 °C
Flash point:	< 0 °C
Flammability (solid, gas):	Extremely flammable liquefied gas.
• Autoignition temperature:	235 °C
Decomposition temperature:	Not determined.
Auto-ignition temperature:	Product is not selfigniting.
Explosive properties:	Risk of explosion by shock, friction, fire or other sources of ignition.
Explosion limits:	
Lower:	2.6 Vol %
Upper:	18.6 Vol %
Vapour pressure at 20 °C:	5,200 hPa
Density at 20 °C:	0.78445 g/cm ³
Relative density	Not determined.
· Vapour density · Evaporation rate	Not determined. Not applicable.
Solubility in / Miscibility with	Not applicable.
water:	Fully miscible.
Partition coefficient: n-octanol/water	
	• Not determined.
Viscosity: Dynamic:	Not determined.
Kinematic:	Not determined.

Organic solvents:	83.9 %
VOC (EC)	655.0 g/l
Solids content (volume):	16.3 %
· Other information	No further relevant information available.

10 Stability and Reactivity

• **Reactivity** No further relevant information available.

· Chemical stability

• Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.

· Possibility of hazardous reactions No dangerous reactions known.

· Conditions to avoid No further relevant information available.

· Incompatible materials: No further relevant information available.

· Hazardous decomposition products: No dangerous decomposition products known.

11 Toxicological Information

· Information on toxicological effects

Acute toxicity

LD/LC50 values relevant for classification:

ATE (Acute Toxicity Estimates)

Oral LD50 11.194 mg/kg (rat) Dermal LD50 13.864 mg/kg (rabbit) Inhalative LC50/4 h >61.3 mg/l

115-10-6 dimethyl ether

Inhalative LC50/4 h 308 mg/l (rat)

67-64-1 acetone

LD50 Oral 5,800 mg/kg (rat) Dermal LD50 20,000 mg/kg (rabbit)

1330-20-7 xylene

Oral I D50 4,300 mg/kg (rat) Dermal LD50 2,000 mg/kg (rabbit) Inhalative LC50/4 h 11 mg/l (ATE)

123-86-4 n-butyl acetate

Oral LD50 13,100 mg/kg (rat) Dermal LD50 >5,000 mg/kg (rabbit)

Inhalative LC50/4 h >21 mg/l (rat)

71-36-3 butan-1-ol

Oral LD50 790 mg/kg (rat) Dermal LD50 3,400 mg/kg (rabbit) Inhalative LC50/4 h 8,000 mg/l (rat)

108-65-6 2-methoxy-1-methylethyl acetate

Oral LD50 8,532 mg/kg (rat) Inhalative LC50/4 h 35.7 mg/l (rat)

Page 8/16 Printing date: 14.03.2022 Revision date: 14.03.2022 Version no. 3

Trade name: BODY PRO C496 2K HS CLEAR SPRAY

112-07-2 2-butoxyethyl acetate

Oral LD50 2,400 mg/kg (rat)

Dermal LD50 1,580 mg/kg (rabbit)

Inhalative LC50/4 h 11 mg/l (ATE)

Primary irritant effect:

· Skin corrosion/irritation Irritant to skin and mucous membranes.

• Serious eye damage/irritation Strong irritant with the danger of severe eye injury.

• **Respiratory or skin sensitisation** Sensitising effect through inhalation is possible by prolonged exposure.

Additional toxicological information:

The product shows the following dangers according to the calculation method of the General EU Classification Guidelines for Preparations as issued in the latest version:

12 Ecological Information

· Toxicity

Aquatic toxicity:

This product is not toxic for the aquatic life. Nevertheless do not dispose the product or any cleaning solvents used along with this product into the sea

Persistence and degradability

This prouduct contains polyesteric molecules and organic solvents and is not known to be bioaccumulative. It can be considered as biodegradable in small quantities. In case of disposal, it should be treated as a hazardous material and should be disposed accordingly. Do not just throw it away

Behaviour in environmental systems:

Bioaccumulative potential No further relevant information available.

• **Mobility in soil** No further relevant information available.

· Additional ecological information:

General notes:

Water hazard class 2 (German Regulation) (Self-assessment): hazardous for water Do not allow product to reach ground water, water course or sewage system. Must not reach sewage water or drainage ditch undiluted or unneutralised. Danger to drinking water if even small guantities leak into the ground.

• Results of PBT and vPvB assessment

• **PBT:** This product contains no substance that is considered to be persistent, bioaccumulating or non toxic(PBT).

• **vPvB:** Not applicable.

• Other adverse effects No further relevant information available.

13 Disposal considerations

Waste treatment methods

• **Recommendation** Must not be disposed together with household garbage. Do not allow product to reach sewage system.

Uncleaned packaging:

Recommendation: Disposal must be made according to official regulations.

• Recommended cleansing agents: Water, if necessary together with cleansing agents.

- Description of the activities / processes covered in the Exposure Scenario
- See section 1 of the annex to the Safety Data Sheet.
- <u>Conditions of use</u> According to directions for use.
- Duration and frequency Frequency of use:
- Worker Permanent use with exposure up to 8 hrs every work day of the week.
- **Environment** The product may not be released into the environment without control.
- · Physical parameters

The data on the physical - chemical properties in the Exposure Scenario is based on the properties of the preparation.

- Physical state Aerosol
- Concentration of the substance in the mixture The substance is main component.
- Other operational conditions
- Other operational conditions affecting environmental exposure No special measures required.

Other operational conditions affecting worker exposure

Avoid contact with eyes.

Take precautionary measures against static discharge. Keep away from sources of ignition - No smoking. Avoid contact with the skin. Avoid long-term or repeated skin contact.

Other operational conditions affecting consumer exposure

No special measures required. Keep out of the reach of children.

Other operational conditions affecting consumer exposure during the use of the product

The directions for use must indicate the limits for proper use.

Risk management measures

Worker protection

• Organisational protective measures

Ensure good ventilation. This can be achieved by using a local exhaustion or general exhaust system. If these measures are insufficient to keep the solvent vapour concentration below the workplace limit, wear an adequate respiratory protective device.

• Technical protective measures

Provide explosion-proof electrical equipment.

Ensure that suitable extractors are available on processing machines

Personal protective measures

Avoid contact with the eyes.

Tightly sealed goggles

Avoid contact with the skin.

Pregnant women should strictly avoid inhalation or skin contact.

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

Measures for consumer protection

Ensure adequate labelling.

Trade name: BODY PRO C496 2K HS CLEAR SPRAY

Observe consumer information and advice on safe use. Keep locked up and out of the reach of children.

Environmental protection measures

· Water

Do not allow to reach sewage system. Dispose of this product and its container at hazardous or special waste collection point. Generally, prior to the introduction of wastewater into wastewater treatment plants a neutralisation is required.

• Soil The product is only processed over the concrete collecting basin.

Disposal measures

Disposal must be made according to official regulations.

Ensure that waste is collected and contained.

Disposal procedures Must not be disposed together with household garbage. Do not allow product to reach sewage system.

· Waste type Partially emptied and uncleaned packaging

Exposure estimation

Consumer This product is to be used by professional technitians only.

• Guidance for downstream users

Whether the downstream user acts within the scope of the Exposure Scenario can be verified based on the information in sections 1 to 8.

AU Continue on page 15

- Other operational conditions
- Other operational conditions affecting environmental exposure No special measures required.

Other operational conditions affecting worker exposure

Take precautionary measures against static discharge. Keep away from sources of ignition - No smoking.

Other operational conditions affecting consumer exposure No special measures required.

Other operational conditions affecting consumer exposure during the use of the product Not applicable.

Risk management measures

Worker protection

[•] Organisational protective measures

Ensure good ventilation. This can be achieved by using a local exhaustion or general exhaust system. If these measures are insufficient to keep the solvent vapour concentration below the workplace limit, wear an adequate respiratory protective device.

• Technical protective measures

Provide explosion-proof electrical equipment.

Ensure that suitable extractors are available on processing machines

Personal protective measures

The usual precautionary measures are to be adhered to when handling chemicals.

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use self-contained respiratory protective device.

Measures for consumer protection

Ensure adequate labelling.

Observe consumer information and advice on safe use.

Environmental protection measures

• Water Do not allow to reach sewage system. Dispose of this product and its container at hazardous or special waste collection point.

• Soil The product is only processed over the concrete collecting basin.

• **Disposal measures** Ensure that waste is collected and contained.

Disposal procedures Must not be disposed together with household garbage. Do not allow product to reach sewage system.

• Waste type Partially emptied and uncleaned packaging

Exposure estimation

Consumer

This product is to be used by professional technitians only.

Not relevant for this Exposure Scenario.

Guidance for downstream users

Whether the downstream user acts within the scope of the Exposure Scenario can be verified based on the information in sections 1 to 8.

Annex: Exposure scenario 3

Description of the activities / processes covered in the Exposure Scenario

See section 1 of the annex to the Safety Data Sheet.

Conditions of use According to directions for use.

Duration and frequency Frequency of use:

[•] Physical parameters

The data on the physical - chemical properties in the Exposure Scenario is based on the properties of the preparation.

· Physical state Fluid

[•] Concentration of the substance in the mixture Raw material.

Other operational conditions

· Other operational conditions affecting environmental exposure No special measures required.

Other operational conditions affecting worker exposure

Avoid contact with eyes.

Take precautionary measures against static discharge.

Keep away from sources of ignition - No smoking.

Other operational conditions affecting consumer exposure No special measures required.

Other operational conditions affecting consumer exposure during the use of the product Not applicable.

Risk management measures

·Worker protection

[•] Organisational protective measures

Ensure good ventilation. This can be achieved by using a local exhaustion or general exhaust system. If these measures are insufficient to keep the solvent vapour concentration below the workplace limit, wear an adequate respiratory protective device.

• Technical protective measures

Provide explosion-proof electrical equipment.

Ensure that suitable extractors are available on processing machines

Personal protective measures

Do not inhale gases / fumes / aerosols.

Avoid contact with the eyes.

Tightly sealed goggles

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

Measures for consumer protection

Ensure adequate labelling.

Observe consumer information and advice on safe use.
